

Houses Pledge 16% More Than Last Year

Fraternities Pledged 285 Students; Take In 38% Of Freshman Class

Two hundred and eighty-five new men have been pledged by the twenty-four fraternities at the Institute, it was announced last night. This is a sixteen percent increase over the number of students pledged by the same fraternities last year.

The total of last year, two hundred and forty-six, was an increase of fifteen percent which means that the various fraternity houses have taken on an increase of thirty percent of the students housed two years ago.

38 Percent of Freshmen Go Fraternity

Thirty-eight percent of the class of 1946 has pledged fraternities. These freshmen were pledged during rush week or the following month. Although most of the pledges are freshmen, several upperclassmen and some transfer students have been taken into the houses.

Of the twenty-four fraternity houses, eighteen showed an increase with several going as high as ninety percent. On the other hand four showed a decrease of slightly above ten percent. The other two accepted the same number of pledges as last year.

The complete list of new fraternity men may be found on the fourth page.

Tech Swingsters Meet Tomorrow

First Full Rehearsal To Be Held At 2 P.M.

At 2:00 P.M. tomorrow the Technicians, official Technology swing band, will hold its first full strength rehearsal in Pritchett Hall, under the leadership of Robert A. D. Schwartz, '45.

"The band has really started to shape up, officers and players having been selected," Schwartz stated. Members of the saxophone section who have been chosen are Richard E. Seaman, '44, Robert A. D. Schwartz, '45, Kenneth C. Matthews, '46, and George M. Berman, '46. The brass section is composed of George R. Welti, '45, Alan L. MacLean, '45, and Richard H. Cavicchi, '44, on the trumpets, with George H. Smith, '46, and Harold A. Miller, '44, playing trombones. Edwin S. Whittaker, '45, is the pianist, and Douglas E. Root, '44, is drummer. Phillip S. Starrett, '45, has been selected as band librarian-manager. "Gorgias O. Gianola, '44, a musician with considerable experience, has been fortunately secured to act as arranger," Schwartz said.

The band will make its debut at the All-Tech Sing, it was revealed today. A successful season is promised, if early judgments of leaders and players are correct.

Theory Offered By Radio Society

The Radio Society decided at its last meeting to supplement its work in the War Emergency Radio Service by offering special classes in radio code and theory. The classes will be open to anyone interested in radio and will lead to a Class B amateur license. Amateur licenses are of special value now because of the urgent need of the nation for trained radio specialists.

The first classes will be held Monday, November 9, at 7:15 P.M. The

Senior Week Options Still On Sale At \$5

"Are you a member of the Class of 1943, or are you a—?" asked Robert B. Rumsey, chairman of this year's Senior Week Committee, as he reminded Seniors that options on tickets for Senior Week will be available in the T.C.A. Office for only two more weeks at the present price of only \$5. Thereafter there will be a material increase in the price, he promised.

43 Sign Up To Donate Blood For Red Cross Drive

"Technology Dames" Will Conduct Signups For Next Two Weeks

In the first two hours of the blood donation drive which started last Tuesday, November 3, 43 men signed up to give blood. No check has been kept on the number of volunteer donors who have signed up on Wednesday and Thursday, but the drive seems to be successful.

For Friday, November 6, and the next two weeks, members of the "Technology Dames" who belong to the Cambridge Red Cross will conduct sign-ups between 11:30 A.M. and 1:00 P.M. daily.

Tuesday, November 10, between 1:30 and 3:45 P.M. is the time set for donations from all Dormitory Committee members and dormitory residents. All members of the Inter-Fraternity Conference and fraternity residents, including pledges should come Wednesday, November 11, from 9 A.M. to 3:45 P.M.

From 9:00 A.M. to 3:45 P.M. on Thursday, November 12, members of publications and all activities represented on the Institute Committee should donate. All others will be accommodated from 4:15 to 8:15 P.M. on Saturday, November 14.

Outing Club Plans Trip For Weekend

Sargent College Girls Will Join Activities

The Tech Outing Club has planned many trips this week end with Sargent College. Those who are interested in hiking will be interested to know that last week's trip in conjunction with Sargent, which was called off on account of rain, is scheduled for this week-end. Those who are going to make the trip are instructed to bring their own lunch when they meet at 9:00 A.M., Sunday, November 8th, in front of Walker Memorial. The hike will be to the Blue Hills where the group is to meet the cyclists and rock climbers for supper.

The bicycling club will meet at 1:10 P.M., Sunday, also at Walker Memorial, to meet the girls from Sargent. From there they will ride out to the Blue Hill's Reservation for supper with the other Outing Club groups. The cyclists are urged to take warm clothing, gloves, and flashlights.

The rock-climbing group, together with other girls from Sargent, will tackle Rattlesnake Cliff this week-end. The meeting is at 1:30, Sunday, in front of Walker Memorial, at which time the fellows will journey to Ashmont, where they are to meet their companions.

The supper for all the groups Sunday night will be served by Alexander G. Smith, '43, and Douglas E. Root, Jr., '44, around 5:00 P.M. Those who sign up and are unable to go must remove their names before 5:00 tonight or be charged one half the price of the meal.

T.C.A. Drive Needs \$1705

Students May Donate Today And Tomorrow

"Since tomorrow will be the last day of the T.C.A. Drive, we hope that every person connected with the Institute, who hasn't already done so, will make some contribution today or tomorrow," said William C. Krutzsch, '45, publicity manager of the drive.

As of midnight Wednesday, \$2,035 had been collected; \$436 coming from commuters, \$634 coming from dormitory residents, and the remaining \$965 being contributed by members of the various fraternities. This is still some \$1,705 short of the \$3,740 which the Christian Association has set for a goal. Only \$223 was contributed towards the World Student Service Fund, while \$289 was collected for the American Red Cross.

The faculty and corporation have responded very well, Krutzsch said, having donated about \$700 up to noon yesterday. This is somewhat more than was received from this group during the same number of days last year.

Desks where contributions may be made are located in the lobby of Building 10, where a photo electric cell operated sign is located to attract attention, and in Building 2. Mr. William Jackson, of the Information Office, has placed a blackboard sign in the Lobby of Building 7, on which is written the following slogan: "Praise the Lord, and pass the contribution. Your T.C.A. is calling."

Voo Doo Again Frightened Away; Will Race Tuesday

Apparently still timid about engaging the enemy, Voo Doo again failed to show up for the once-postponed obstacle race, scheduled to be held last night between the managing boards of Voo Doo and The Tech. Originally scheduled to conclude Field Day week-end, the race was postponed because of Mr. Spitz's head. This time the excuse offered was that Mr. Metzger had sprained his back.

When contacted last night, Metzger finally agreed to show up next Tuesday at 5 P.M. The Tech has finally made some attempt to end the farce, however, and the agree-

(Continued on Page 4)

Students Crowd Desk To Give Prom Committee Sellout After Ten Days

Make Early Statler Jr. Prom Reservations

Mr. Watson, assistant manager of the Statler Hotel, requests those students who intend to reserve rooms for the Junior Prom week-end to do so promptly, as the hotel is usually crowded on week-ends. When making a reservation specify that it is for the Technology Junior Prom week-end.

Orators Vanquish Middlebury Team; Williams Next Foe

Hummer And Musgrave To Make Annual Trip, Will Visit Maine, Bates

On October 29, the M.I.T. Debating Society won a debate from Middlebury College on the subject, "Resolved, that Congress should regulate by law the use of patents in order to eliminate patent cartels." The team from Technology, George M. Musgrave, '43, and John L. Hummer, '43, presented the negative case, while John Calhoun and John Unterecker, from Middlebury, argued in favor of the resolution. The judge, Rev. W. H. Gysan, listed as the two best speakers, John Calhoun and John L. Hummer, and said that he awarded his decision mainly because of the failure of the Middlebury team to present an acceptable definition of "patent cartels." An audience of twenty people witnessed the contest.

The Debating Society will hold debates simultaneously at Williams College and at Technology on November 13, on the subject, "Resolved, that the United Nations should establish a permanent union with power to tax and regulate international commerce, to maintain a police force, to settle international disputes and to enforce such settlements, and to provide for admission of other nations which accept the principles of the union." In the debate here, Technology will have the negative side, while at Williams, John Mitchell, '46, and John W. Shearer, '46, who will represent Technology.

(Continued on Page 4)

Monday Initiates Redemptions, Table Reservations

As officially announced by George Schutte, '44, chairman of the Junior Prom Committee, the last 125 options for the Junior Prom have been sold out. Due to the run on options the full number of Junior Prom tickets have been reserved; thus, there will not be any ticket sales. Only those redeeming an option will be able to attend the prom.

Ticket redemptions will start Monday of next week and will continue for the remainder of the week. Early redemptions are urged, as added information concerning the names of the students and their dates attending the dance are desired by the committee.

The Junior Prom issue of VooDoo will print a list of the names of all the ticket holders and their dates and this list must be compiled by the end of next week. Therefore as each ticket is redeemed the student will be asked to leave his full name as well as his date's.

Table reservations will also take place starting next week. Due to a new seating arrangement there will be tables only for groups of three and six couples. These groups must register together, all having redeemed their options.

Musicians Plan Next Rehearsal

A special rehearsal of the M.I.T. Classical Orchestra will be held next Tuesday, November 10, from 5-6 P.M. in Litchfield Lounge of Walker Memorial, it was announced by B. Frank Wilbour, Jr., '43, general manager of the M.I.T. Musical Clubs last night. The picture for Technique is to be taken at this time, and a vote will be taken to decide on the best time for future rehearsals.

Mr. Dunham, the director, wants to see all instrumentalists who are interested, Wilbour added, saying that the turnouts have been discouragingly small to date. The orchestra is scheduled to give its first public performance at the annual All-Tech Sing, scheduled for December 4 this year.

Glee Club rehearsals have recently been changed from Room 1-390 to Room 2-390, but they are still held each Monday and Thursday from 5 to 6 P.M., Wilbour stated, saying that all freshmen and upperclassmen interested in singing are urged to come out for rehearsals. No previous experience is required.

Under the leadership of Mr. Dunham, the Glee Club is preparing for the first concert of the season, to be given jointly with the Wheelock College Glee Club in Walker Memorial, on Friday, November 14, at 8:30 P.M.

Frosh Swimmers Urged To Start Practice

With the first meet only a month away, all freshmen with any intentions of going out for the freshman team should report for practice now. A good sized group has already settled down to practice, but it is hoped that the freshmen occupied with other Field Day sports previously will now turn out for the team.

Co-eds In Dramashop Play, "You Can't Take It With You"

With but a week left before the presentation of their fall production, Dramashop's cast is hard at work. The play, the well known Moss Hart and George Kaufman Broadway hit, "You Can't Take It With You," is to be presented at 8:30 P.M. on Friday and Saturday, November 13 and 14 at the Peabody Playhouse in Boston.

Because it is the only activity at the Institute in which co-eds can participate, Dramashop has attracted many excellent actresses which make up more than half the cast. Three of these are performing for the first time in a Dramashop production.

Mildred B. Edwardson, '46, is the heroine. She portrays the character of Alice, the sweet young girl who marries the boss' son. The boss' son is Charles A. Morgan, '45, who is playing his first role in Dramashop. Jasper D. Ward, '45, and Harold A. Miller, '44, are the source of much gaily and laughter, as Paul Sycamore and Mr. De Pinna, who are busily engaged in the manufacture of fireworks. These, al-

though intended for the Fourth of July, go off at the most unexpected moments. More hilarity comes from Essie, Marion H. Ferris, '45, whose intricate dance steps, conceived by the ingenious brain of her Russian ballet teacher, Mr. Kolenskikh, L. B. Van Ingen, Jr., '46, provide many of the laughs throughout the play.

The cast selected for the play is as follows: Penelope, Frieda S. Omansky, '46; Essie, Marion H. Ferris, '45; Rheba, Lenore E. Brooks, '45; Paul Sycamore, Jasper D. Ward, '45; Mr. De Pinna, Harold A. Miller, '44; Ed Carmichael, Lee Schwarz, '45; Donald, Philip R. Johnson, '46; Martin Vanderhof, George F. Coons, '46; Alice Sycamore, Mildred B. Edwardson, '46; Henderson, Geoffrey Robillard, '44; Tony Kirby, Charles A. Morton, Jr., '45; Kolenkhov, L. B. Van Ingen, Jr., '46; Gay Wellington, Eleanor C. Edwardson, '47; Mr. Kirby, L. W. Datz, '43; Mrs. Kirby, Joan T. Rothwell, Grad.; Olga, Mary E. Guinan, '44; G-man, T. Nicolas Berlage, Jr., '46.

A SELL OUT

The Junior Prom Committee of the Class of 1944 looks today upon a situation that is both encouraging and discouraging. It is a bright picture in that a pre-dance sellout has insured the success of this year's Prom. It is disheartening because some students have taken advantage of the opportunity to purchase blocks of tickets for speculative purposes only.

The Class of 1944 is indeed fortunate in being assured of a full house for the big social event of its Junior year. Its committee will now be able to make plans and expenditures with the certainty that they can be carried out profitably. At the same time, the committee can make full use of the entire income from the dance; there will be no last minute rush for tickets and consequently no returns that will come in too late to be used advantageously in dance plans.

On the other hand, the coming Junior Prom may be defaced by the selfishness of a few students who are trying to make a little pin money on the resale of Prom tickets to their unfortunate classmates who neglected to buy early. In an attempt to prevent unfair ticket "scalping", the Junior Prom committee is asking that all holders of extra tickets return them to the committee so that they may be sold at the regular price. We hope that the committee is as successful in this endeavor as they were in their original function.

EARLY ELECTIONS

Technology's accelerated program has caused a bit of uncertainty in undergraduate life at the Institute by graduating the Class of 1943 one semester ahead of schedule and consequently leaving the student body without an experienced Senior Class during that period. Under the regular curricula and schedule of activities' elections, the retiring undergraduate leaders remained at the Institute for a semester after their departure from office and acted as an unofficial advisory council to the new officials who are usually uninitiated in handling the responsibilities of their new positions.

This year, however, the Seniors leave in February, the same month that most of the new activity leaders take office. Senior Class officers including the President of the Undergraduate Association will also be leaving so that the Institute Committee will inherit a new President. All of these men will step into their recently-acquired positions with no experience or knowledge of their duties if the old schedule of elections is followed.

It is apparent, then, that if the new men are to become acquainted with their new jobs under the supervision of their predecessors, they must be elected some time before February. At the same time, the 1944 Institute Committee must be assembled in its entirety so that the Executive Committee can be selected to begin its all-important reign.

An early election of undergraduate leaders would also free the hard-pressed Seniors from any extra-curricular worries they may have and leave them unobstructed to apply the finishing touches to their thesis and schoolwork.

Boy's Workers Expand Program With Aid Of Girls

More interest than ever before is being shown in T.C.A. Boy's Work this year, and consequently more work is expected to be accomplished than in any previous year. About thirty freshmen have volunteered to date. Technology student workers, under Director Wendell Davis, '43, lead more than 100 groups in 27 Greater Boston settlement houses.

Leaders give instruction and help in many fields, including general science, hiking, discussion groups, scouting, and other types of projects. Last year another new phase of social endeavor was introduced; that of teaching underprivileged boys to pass crew and helmsman tests in a course nearly identical with that regularly given to Technology students at the Nautical Association pavilion. This was one of the most popular of the projects with the youngsters, as might well be expected. It is planned to carry on a similar program this year.

Female Club Leaders Inaugurated

However, boys are not the only youngsters who need leadership. In previous years a great need existed for girls to fill the inadequate supply of female club leaders. Consequently, Sidney F. Atlas, '43, and two other Boys' Workers went to Wheaton and Wellesley in order to recruit students to fill the widespread need. Many girls from surrounding colleges, principally Wellesley, are now leading groups in collaboration with T.C.A. Boy's Workers. Athletics, drama, cookery, sewing, and model plane building for civilian defense spotters are taught by the enthusiastic co-eds.

A feature of this year's social work are several co-ed groups, each led by a boy and a girl, which help mixed groups of teen-age youngsters to work and play together in wholesome recreation and beneficial work. Much natural timidity is eliminated, leaders hailing this as an important development in child psychology. Athletics, games, dancing, drama, and other activities possible only with mixed groups are incorporated into the program.

Davis believes that in carrying on these activities, Boy's Workers are forming a favorable public opinion of Technology, and that Boys' Work is an ideal way for Institute students to participate in community affairs.

With increased juvenile delinquency due to the turbulence produced by the war, there is an even more crying need for settlement workers. Now there are even fewer leaders available than ever before, the depletion being due to war industries and the armed services. T.C.A. workers are of increased importance this year, filling one of the community's most urgent needs. Because of this from 75 to 100 workers are needed in addition to the already expanded supply of 100 leaders, according to Matthew M. Shapiro, '45, one of the leaders in the Boy's Work Division.

Boy's Work Not a Burden

However, in spite of the social services performed, T.C.A. workers themselves have plenty of fun, as they themselves have demonstrated by their enthusiasm. The leaders give only two hours of their time weekly, this night being spent at some Cambridge or Boston settlement house. Most workers give more time than this.

Since its institution several years ago, the T.C.A. Boy's Work Division has been serving the community in a variety of ways. Besides the regular boy's groups, \$1,000 is annually expended for the purpose of sending about 100 underprivileged youngsters to summer camp. This gives welcome relief to young city dwellers from urban congestion and unfavorable health conditions. With increased wartime importance, boy's work promises to be of even more prominence in the community.

For Boys To Play

By Gene Schnell

... at the moment your columnist is duly meditating on a new turn of events as concerning entertainment at Technology. An old English custom seems to have taken hold over one of our fraternity houses, which is now serving tea at a quarter of five every afternoon. There seems to have been some controversy among the brothers of this, "old and notable fraternity," as to whether these teas should be chaperoned or not, for Emily Post was approached several months ago in reference to the proper etiquette of this type of mixed gathering. The crux of the matter turned out to be a new term for the college-aged members of this fraternity. Rather than be considered as "wolves", Miss Post intimates that the brothers of this house have taken on the more pleasant duties of chaperons. I'm still in doubt as to how pleased the members of this house are when they see, shall we say, their brothers "chaperoning" their dates. Miss Post finds unchaperoned afternoon teas to be quite proper at this house, and, by the way, brothers of this fraternity don't "apple polish" either.

... the sellout of the Junior Prom, long predicted by the members of the Junior Prom Committee, pleases your columnist immensely, for its shows that at least 425 Tech students know a good thing when they see it. It may be of interest to note that no advertisement other than announcements in the Tech was necessary to push the sale of options, which were sold out in

ten days, only three of which were open to the whole school. It definitely looks as if the Junior Prom weekend, inaugurated last year, is here to stay.

... parties this weekend are again varied including informal, acquaintance, and "shipwreck" dances. The Phi B. E's are going back to nature in a shipwreck manner at the Boston Yacht Club Friday night, Paul Lane and his orchestra starting the fun at 8:30 P.M. Refreshments will take a new turn with cider gin, and grain alcohol forming a new type of brew. Tails with red-flannel underwear are suggested as the proper dress, and if any of you are wondering about the bit of double talk inserted in the dance bid, it's a description of what shipwrecked Phi B. E's would wear. We hear that Adam and Eve will be at the party.

... the Theta Delta Chi brothers will take over the Hotel Puritan, Friday night, to hold their Pledge dance, informal this year. Bert Edwards will provide the music from 9:30 to 1:30 and refreshments will be available at the Puritan Bar.

... the International Student Association of Greater Boston and the International Student Council are holding a reception and dance in honor of students from abroad in Walker Memorial Hall, making the third party for Friday evening.

... the last party of the weekend will be a private affair for 5:15 Club members only. This record dance will commence at 8:00 P.M., Saturday night, in the 5:15 Club room in the basement of Walker Memorial.

You can help save 29,000 hours a day

ONE second saved in each of the 106 million telephone calls made every day would add up to well over 29,000 hours—would help greatly to keep lines open for vital military and war production calls.

A single second is that important. So answer promptly, giving your location and name, and keep your conversation brief. When making a call, be sure you have the right number—use the directory—call Information only when it's really necessary. And please don't use Long Distance to defense areas unless your call is urgent.

The Bell System has a big job to do. By saving seconds you may make room for a vital war-time call.

WAR CALLS COME FIRST!

Veteran Hockey Squad To Start Practice At Boston Arena

Seven Lettermen Return to Form Nucleus Of Team

With seven lettermen returning from last year's squad, the M.I.T. hockey team will take to the ice for its first practice session of the season next Monday at the Boston Arena at 7:00 A.M. in preparation for a tough eleven-game schedule. Among the veterans expected back are: Captain Fred Kaneb, John Burdakin, Bill "Speed" Verrochi, Charlie Seifert, and Dick Merrow, defense men; Johnnie White, Dick Bettes, Roger Patterson, Bob Gillen, Bill Fraser, Russ Noreen, and Bud Willard, forwards; Al Tashjian, Larry Button, and Bob Mason, manager last season, will try out for the goal-tending department.

Coch Is Optimistic

Coach George Owen, former Harvard great and Bruins' captain during the Shore, Hitchman, Thompson era, appeared optimistic at the recent hockey rally and looked forward to a good season if a suitable goalie can be developed from one of three mentioned above. In view of the fact that none of the three has had much experience, Coach Owen stressed the fact that if there are any experienced goal-tenders at school they should report for the first practice on Monday.

Manager Frank Carey, '44, announced that 25 freshmen had already signed up for hockey as a P.T. substitute and asked all others who are interested to report Monday. If enough freshmen respond, a team will be made up similar to last year's successful freshman team which scrimmaged against the varsity and played several games with nearby prep schools, taking a trip to Providence for its final game of the season against Mt. St. Charles.

Although two of the Maine teams were forced off this year's schedule due to the transportation difficulties, a well-rounded schedule remains.

First Game vs. B.U.

The first game is to be at the Boston Arena on December 4th with Boston University, one of the two teams the Beavers defeated in league competition last season. This win marked the first victory by a Tech team over a B.U. sextet since 1935.

Northeastern, Harvard, Dartmouth, Tufts, New Hampshire, and a Norwich-Middlebury weekend complete the scheduled N. E. Hockey League games. A trip to Lake Placid for the annual tournament is also to be held this season during the Christmas vacation.

Stickmen To Scrimmage In Final Practice

The lacrosse team will conduct its final practice session of the fall season today at 4:30 o'clock behind the Alumni Pool when the squad will participate in a light workout which will include scrimmage. All students from all classes who are interested in playing lacrosse are urged to attend the practice according to Captain Al Heckel.

Soccer Game Won By Harvard Team With Score 4-0

Tech's Varsity Team To Play Springfield On Briggs Field, Sat.

The Tech varsity soccer team lost to the Harvard team on the latter's field last Wednesday to the tune of 4-0. The following is the starting line-up: goalie, Edwin A. Rosenberg; fullbacks, Arthur C. Loven, and Miles Coverdale; halfbacks, Edward C. Chapin, Warren W. Carpenter, and Malcolm McFaul; forwards William G. Abbott, Kiyohiro T. Momose, Ralph S. LaVallee, Alfred H. Heckel and William M. Ihde, Captain Warren Carpenter played a very good game. If the team has as good a practice today as yesterday's they will be in good shape for the game Saturday with Springfield which will be played here. The team winds up the season with a game with Tufts November 21 and another with Dartmouth on November 28.

End Of Contests Near In Football

Beaver Key And Dorm Races Finish Nov. 22

Both the Beaver Key and dormitory football tournaments are nearing completion in preparation for the round-robin series of twenty games to climax the tourneys. Senior B is leading the dorm competition with a clean slate while Walcott and Senior A follow closely with but a single defeat. The conclusion of the dorm football race has been set for November 22 according to Gregory Azarian, '43, chairman of the tourney.

In the interfraternity Beaver Key tournament the winner of the coming game between Sigma Nu and Phi Gamma Delta will play Theta Chi on Sunday to determine which team will compete in the final round-robin. Sigma Chi and Sigma Alpha Epsilon will be the other two fraternities in the final series by virtue of their victories last weekend. James Woodburn, chairman of the tournament hopes to see the final round of the tournament completed on the Sunday of the Junior Prom weekend.

Taft Elected Commodore Of Pavilion

Parkinson, King And Evans Also Hold Positions

The new commodore of the Nautical Association is Jack Taft, it was announced at the meeting in 10-250 Wednesday night. Vice-Commodore, secretary, and treasurer are Sam Parkinson, Steven King, and Ralph Evans, respectively. Also announced was the appointment of Larry Powell, Walt Jeager, Harold Boericke to the Executive Committee. The association, the largest organization at the Institute, was addressed by Lt. Wood, Coast Guard Academy, who used to be the sailing master here at Tech. Lt. Wood showed movies of the training that the cadets at the Academy go through. He also had some reels of the regattas held here at M.I.T. The Sailing Pavilion will be closed a little earlier this year than usual. November 15 will be the last day of sailing this year.

This weekend the Freshmen Regatta will be held on the Charles. Representatives of ten (10) schools will take part in the event. The Harvard crews, which have had all summer to stretch their sails, are favored to take the meet, but the M.I.T. crews are rated close enough to suggest an upset.

Handicap Meet Will Be Tomorrow At 2 P.M. On Briggs

Dash, Run, Pole Vault, High Jump, and Javelin Included In Handicap

The tracksters will meet at 2:00 P.M. tomorrow afternoon on Briggs Field for an interclass handicap meet. All classes will be represented by the track and field men who wish to enter the various events.

The meet is to include seven events: 75 yard dash, 150 yard dash, 300 yard dash, and 1/2 mile run. The field events are: high jump, pole vault, and javelin throw.

All trackmen, particularly frosh, are urged to enter the various events. The handicap is in preparation for the annual fall inter-class meet to be held on the following Saturday, November 14. This handicap, to include fifteen events, will have for officials former Tech track men and other alumni.

Advisory Council Makes Awards

Awards T's and Acts To Set Rifle Standards

The Advisory Council on Athletics met last Tuesday, November 3, for a business meeting. The recent revisions of the M.I.T.A.A. constitution were passed by the Council.

A rifle committee, to set up the standards for qualifying for the straight T for rifle, was appointed. The members composing this committee are Captain Charles S. Joyce, Sergeant Edward Woicak, Kenneth R. Wadleigh, '43, and Robert H. Wood, '44.

The following awards were made by the Council: aTa to Kenneth R. Wadleigh, '43 for Manager in Track; aTa to Warren L. Knauer, '43 for Equipment Manager; straight T to Richard R. Wareham, '44 for record in hammer-throw; tTt to Guy B. Stearns, '43 for Tennis Manager; gTt to Eugene H. Morrison, '43 for Golf Manager, and tTt to W. H. Howard, '44 for varsity tennis team.

Pucksters Start Practice Monday

Next Monday morning about 6:30 the old boards at the Boston Arena will resound to whack of pucks as the Tech puckpassers rally in the arena for their first regular practice.

Already some of the fellows have been skating at regular public skating hours in the arena, unable to subdue their enthusiasm enough to wait for the first practice.

Skating Emphasized

If the usual course is followed, the first practices will consist of emphasis on skating, working the muscles of the thighs and hips to ensure the balance and drive necessary before acquiring the art of stick handling and puckpassing.

Captain Fred Kaneb, the spark of the team, will be the man who will lead the fellows through these exercises, around and around the arena in a figure eight, duck-waddling on skates, sharp turns, quick starts and stops.

Goalie Is Badly Needed

The direct need of the team at present is that of an experienced goalie. With the graduation of Ed Edmunds, last year's goalie, the pucksters have been left without an experienced net tender.

This provides an excellent opportunity for any eligible student, particularly if he has had experience. Some one must take it upon himself to train himself conscientiously for that position if the team is to be successful this year.

Powerful First Line

The most powerful forward line available to Tech pucksters probably consists of Fred Kaneb at center with Johnny White and Dick Bettes on the wings, (if George Owen decides to put Kaneb in the line).

Fred Kaneb came to Tech from McGill University in Montreal, where he had played football. Ineligible his first year, he played hockey at Tech for the first time last year as a Junior. Kaneb played a kinetic defense position and made innumerable solo drives deep into enemy territory. He was chosen as first string defenseman on the all-New England college hockey team. At the annual hockey banquet at the end of the winter season last year, there was no question of co-captains. Kaneb was chosen captain by unanimous consent.

Johnny White and Dick Bettes are Juniors, both of whom have played for Tech since they were on the forward line of the freshman team two years ago. Last year they played on the first string forward line which was centered by Johnny Arnold, who incidentally was chosen second team center on the all-New England collegiate team.

Cross-Country Meets Monday For N.E.I.C.C.

Technology Will Run Against Many Colleges From All New England

This Monday, November 9, at 2:00 P.M., the Technology team will run at Franklin Park against fifteen New England colleges in the annual New England Inter-Collegiate Cross-Country Championship Race.

The colleges entered in the event are: Boston University, Bowdoin, Colby, Holy Cross, M.I.T., Middlebury, Northeastern, Rhode Island, Springfield, Tufts, University of Connecticut, University of Maine, University of New Hampshire, University of Vermont, and Mass. State.

The Tech team: Bob Miller, captain of the team, Bob Cummings, Wally Jevon, Ken Joseph, Harold Knapp, Bill Rockholz, and George Zeigler, will run against some of the fastest runners of New England. Bob Nichols, winner of last year's event; Ken Taylor and Dave Roach from Rhode Island; Frank Quincy and Phil Boyne from Colby; Tom Crane and Bill Boothe from Springfield, and Richard Phillips from Tufts are all rated as A-1 men and will probably place among the leaders in the run.

"Undoubtedly," said Oscar Hedlund, coach of the cross-country team, "Rhode Island will take first place. It was last year's winner of the N.E.I.C.C. and the I.C. 4A and has the strongest teams in these states. For second place it is either Colby or Springfield, and after that there will be a terrific battle for points."

One hundred and five men will start the race, seven from each school, and will run over the 4 1/2 mile course. Although all other colleges are running freshmen, in this event, Tech will not run any freshmen in varsity meets.

Frosh Team in Offing

From the showing of the class of '46 at the hockey rally, there should be an excellent freshman team. Many men have signed up for the freshman team, but the real test is whether these men will come out and keep on coming out. It is through good freshman teams that skill and power is developed which will later decide the fate of the varsity. If the freshmen will come out and keep on coming out they will be able to organize a successful team, but it does no good to merely sign up.

Team Must Beat B. U.

The first game scheduled for the varsity is the game with B. U. on December 4. This is the game which the pucksters should concentrate on winning. If the hockey team can defeat the Boston University in that game, it is assured of an excellent season.

Debating

(Continued from Page 1)

resent Technology, will argue the affirmative case.

During its annual fall trip, which will be held this year from November 11 to November 15, the Debating Society will hold debates with the University of Maine and Bates College. The man representing Technology will be John L. Hummer, '43, and George M. Musgrave, '43.

Obstacle Race

(Continued from Page 1)

ments now contain a clause whereby Voo Doo will forfeit their only chance for victory this term if they do not show up for the race this third time, since the annual football game is scheduled to be held within a few weeks. The lineup will be the same as originally planned, with Richmond racing Swanberg, Ottinger against Spitz, and Tyrrell vs. Metzger. Two out of three will decide the winner.

Radio Society

(Continued from Page 1)

location will be announced on the Society's bulletin board near room 10-203.

There are still opportunities for operators to participate in the work that the society is doing in the ARP emergency communications net. Those interested who have not signed up should contact Phillip E. Fox, G, at the Graduate House.

Swimmers Have Good Schedules

In spite of transportation facilities, both varsity and freshmen swimming teams have been able to get excellent schedules. Each team has half of its meets at Alumni pool. Prospects look good for both teams. The schedules are as follows: varsity—R.P.I., here, Dec. 5; Amherst, here, Dec. 12; Harvard, here Dec. 16; B.U. here, Jan. 9; Bowdoin, away, Jan. 12; Conn. U., away, Jan. 16; Wesleyan, here, Feb. 27; Mass. State, away, Feb. 20; W.P.I., away, March 6.

Freshmen—Dean Academy, here, Dec. 12; Harvard, here, Dec. 16; Andover, here, Jan. 13; Exeter, away, Jan. 16; Moses Brown, here, Feb. 20; St. George's School, away, Feb. 27; Brookline H. S., away, March 4; W.P.I. away, March 6.
